Counseling Corner—Mrs. Nelson
Happy Friday Bears!

When is the last time you felt angry? I mean *REALLY* angry?

Did you know....

Anger is often referred to as a secondary emotion, which may make it seem as though it is somehow less important than other emotions. Instead, it means that **anger never arrives in a vacuum** but is instead a response to other emotions that we may be feeling.

If you would like to know more about the emotion of anger and tips/tricks to express it in a safe manner stop by Mrs. Nelson's office!

Apple Summer App Camp

In this 3-week hands-on camp, students will learn to build mobile apps using Apple software and hardware tools. Each day will be divided into a morning session, lunch, and then an afternoon session. In the morning session, leveraging Apple's Swift Playground environment, students will learn the fundamentals of programming (commands, loops, logical operators, variables, arrays, functions, etc). In the afternoon session, students will leverage their newfound programming skills alongside Apple's creative tools (GarageBand, Clips, and IMovie) and the code.org app lab environment to build their own multi-media apps and games. There is no cost to attend the camp. No experience is necessary; everybody is welcome.

Where: Columbia College Campus.

When: Session 1: Tuesday 6/20 - Friday 7/7 (no 7/4 class).

Session 2: Monday 7/10 - Wednesday 7/26.
